Product Overview

Smart Climate Control and Illumination

This 60-inch smart ceiling fan combines advanced air circulation technology with versatile LED lighting to enhance any indoor space. Featuring an ultra-efficient 10-speed DC motor, it delivers powerful airflow while maintaining quiet operation and significant energy savings. With integrated smart connectivity, users can easily manage fan speeds, lighting, and scheduling through voice commands or mobile applications.

Performance & Motor

Key Performance Metrics

7000 CFM

Airflow

30 W

Fan Wattage

Motor Type

10-Speed Reversible DC Motor

Efficiency

75% more efficient compared to standard AC motors

Lighting & Design

LED Lighting

Specification	Value
Wattage	36W
Brightness	3000 Lumens
Color Temperature	2700K - 4000K

Dimmable

Yes

Blade Material

ABS / PC

Smart Features & Connectivity

Remote Control Functions

- Fan Speed Adjustment
- Light On/Off
- Light Dimming
- Reverse Function

Smart Home Compatibility

Alexa, Google Assistant, Siri, iOS App, Android App
