

6.0 Megapixel Digital Camera with Zoom Lens

This digital camera features a 6.0 megapixel resolution and a zoom lens with a focal length range of 6.3-18.9mm. The camera is finished in a light blue color and includes a built-in flash.

Overview

Compact Digital Imaging Solution

This 6.0-megapixel digital camera is designed for versatile everyday use, combining high-resolution image capture with a flexible zoom lens. Its compact form factor makes it an ideal choice for portable photography needs, while the integrated flash ensures reliable performance in various lighting conditions. The device offers a balanced focal length range suitable for capturing both wide-angle scenes and detailed subjects.
