

# 60Hz Industrial Gearbox

This gearbox is designed for machinery and industrial applications. Configured for 60Hz power systems, it ensures optimal operation within specified electrical environments.

## Product Overview

### Industrial Gearbox Performance

This 60Hz industrial gearbox is engineered for robust performance and durability in demanding machinery applications. It features a precision-engineered internal gear system designed to provide reliable power transmission and efficient torque conversion. Optimized for 60Hz power systems, this unit ensures consistent operation within specified electrical environments.

## Technical Specifications

Speed Reduction Scale	1:4.36
Inner Gear Modulus	1M
Wave Wheel Spline Size	9x9x11.5

## Operational Capacity

### Power Frequency

**60 Hz**  
Frequency

Suitable Load Weight	7 KG
