Product Overview

Industrial Pressure Monitoring

This 60mm pressure gauge features a distinct golden case, combining aesthetic appeal with robust industrial durability. Engineered to handle pressure ratings up to 16 bar, it provides precise and reliable monitoring for pneumatic, hydraulic, and various other fluid systems. Its high-quality construction and brass connection ensure a long service life and reliable performance in demanding commercial environments.

Technical Specifications

Dial Size	60mm
Maximum Pressure	16 bar
Connection Material	Brass
Materials Compatibility	SS304, SS316, Brass, Phosphor bronze

Customization

Available Customizations

- Custom Logo
- Flange mounting
- Mounting Brackets
- PT/NPT/G Thread types
