

6202ZZ Deep Groove Ball Bearing

This 6202ZZ deep groove ball bearing is constructed with bearing steel for enhanced durability. The bearing features metal shields on both sides for protection against dust and contaminants.

Product Overview

High-Precision 6202ZZ Deep Groove Ball Bearing

The 6202ZZ deep groove ball bearing is engineered for high-speed operation and reliable radial load support in demanding industrial environments. Featuring robust bearing steel construction, this unit is equipped with dual metal shields (ZZ) to provide effective protection against dust and contaminants. It is an ideal choice for applications such as air conditioning systems, ensuring smooth and consistent performance.

Technical Specifications

Shielding

ZZ (Metal Shields)

Bearing Type

Deep Groove Ball Bearing

Material

Bearing Steel

Key Features

Why Choose This Bearing

- Super high quality construction
- Durable bearing steel material
- Optimized for high-speed performance
- Effective dust and contaminant protection

Primary Applications

Air Conditioning Systems, Industrial Machinery, High-Speed Operation
