Net weight(kg)	9.6
Discharging capacity(ml)	63.3
Mating power	1E48FP-E
Power(kW/r/min)	2.1/6500
Package dimension(mm)	475×355×545

## ADDITIONAL IMAGES

## Product Overview

### Professional Backpack Blower

This high-performance backpack blower is designed for efficient debris management in large public areas such as parks, squares, and gardens. It features a powerful 63.3cc engine that delivers reliable performance for clearing paths, flowerbeds, and fallen leaves. The versatile design allows for easy conversion between blowing and vacuum shredding, making it a flexible tool for professional grounds maintenance.
