

6.35mm Male to 3.5mm Female Stereo Audio Adapter

This adapter converts a 6.35mm male stereo plug to a 3.5mm female stereo jack. It is ideal for connecting headphones, microphones, or instruments with a 3.5 mm plug to devices with a 6.35 mm jack, such as amplifiers, guitars, or audio interfaces.

Product Overview

High-Fidelity Audio Connectivity

This professional-grade audio adapter facilitates seamless connectivity between 3.5mm and 6.35mm audio equipment. Constructed from solid brass with 24K gold-plated connectors, it ensures minimal signal loss and superior corrosion resistance compared to standard plastic alternatives. Designed for reliability and ease of use, it features a 360-degree grip pedal for simple insertion and removal, making it an essential tool for studio, home theater, and personal audio setups.

Technical Specifications

Male Connector	6.35mm (1/4 inch) TRS
Female Connector	3.5mm (1/8 inch) TRS
Construction Material	Solid Brass
Connector Plating	24K Gold-plated
Compatibility Requirements	Requires TRS (3 conductors). Not compatible with TS (2 conductors) or TRRS (4 conductors).

Features

Design Features

- 360-degree grip pedal for easy handling
- Corrosion-resistant materials
- Durable metallic construction
- High-fidelity signal transfer

Compatibility

Compatible Devices	Headphones, Amplifiers, Mixing Consoles, Home Theater Equipment, AV Receivers, Smartphones, Tablets, Guitars, Digital Pianos, PCs
