

# 65-910 kVA Enclosure Generator

This enclosure generator provides a robust and reliable power solution for diverse applications. Its durable enclosure ensures noise reduction and weather protection, optimizing performance in various environments.

## ADDITIONAL IMAGES

## Overview

### Robust Power Generation Solution

This enclosure generator provides a versatile power solution with an output range of 65 to 910 kVA. Designed for industrial, commercial, and residential applications, it features a durable, weather-protected enclosure that significantly reduces noise during operation. Equipped with advanced control systems and a high-capacity fuel tank, it ensures reliable, continuous performance for critical operations.

## Performance Specifications

### Power Range

**65 kVA**

Minimum Output

**910 kVA**

Maximum Output

Output Voltage

415 V

Frequency

50 Hz

Noise Level

85 dB(A) at 1m

## Features & Compliance

### Suitable For

- Industrial Applications
- Commercial Use
- Residential Backup
- Rental Services

Certifications

CE, ISO 9001, ISO 14001, CQC

Fuel System

24-hour bundled diesel fuel tank

Control System

Integrated digital control panel with navigation, start/stop, and alarm monitoring
