Product Overview

Robust Mobile Power Solution

This 65 kVA trailer-mounted diesel generator is engineered for reliable performance in demanding industrial and commercial environments. Designed for mobility, the unit features a durable trailer chassis with adjustable support legs, making it ideal for construction sites, outdoor events, and emergency power backup. The generator is built with high-quality components, including a reliable engine and branded alternator, ensuring consistent electrical output and long-term durability.

Quality & Components

Product Description

High-quality internal components featuring German terminal blocks and professional wiring standards.

Certifications

Certified quality and safety standards for reliable operation.

Certifications

CE • ISO 9001 • ISO 14001 • TUV

Key Components & Features

- German Phoenix terminal blocks
- CHINT brand electrical wiring
- Durable fiber glass enclosure
- German VARTA batteries
- Anti-vibration mounting
- CE standard cable wiring

Operational Safety

Safety & Protection

- Overload protection
- Low oil shutdown
- Emergency shutdown
- Coolant-tested gensets for rust protection
- Breaker protection
