

650mAh Ni-Cd Rechargeable Battery 2.4V

This is a rechargeable Ni-Cd battery with a 650mAh capacity. It has a voltage of 2.4V.

Product Overview

Reliable Power Solution

This 2.4V Ni-Cd rechargeable battery offers a dependable 650mAh capacity, making it a suitable choice for various electronic applications requiring consistent power. Designed for durability and performance, this battery is built to meet standard energy requirements. Its compact form factor ensures compatibility with a range of devices, providing a practical and cost-effective energy solution.

Technical Specifications

Capacity

650 mAh
Capacity

Battery Chemistry	Ni-Cd (Nickel-Cadmium)
Nominal Voltage	2.4 V

General Information

Country of Origin	China
Key Features	Rechargeable, Ni-Cd, Compact
