

650W 5L Stand Mixer for Kneading and Whipping

This stand mixer is a versatile appliance for mixing, kneading, and whipping ingredients. It features multiple speed settings and includes attachments such as a dough hook, beater, and whisk.

Product Overview

Professional Kitchen Performance

This high-performance 650W stand mixer is engineered for professional culinary demands, offering versatile solutions for kneading, whipping, and mixing. The 5L capacity combined with multiple speed settings makes it an ideal tool for bakeries and kitchens focused on efficiency and consistency. Its robust construction ensures stability during heavy-duty tasks like bread kneading, while the tilt-head design simplifies ingredient loading and attachment changes.
