

# 67.2V 8A Lithium-Ion Battery Charger for Electric Scooters

This lithium-ion battery charger is designed for electric motorcycles and scooters. It provides a 67.2V output for charging 16S 60V battery packs at a rate of 8A.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Charging Solution

This 600W battery charger is engineered for electric motorcycles, scooters, and e-bikes, providing a reliable and efficient power delivery system. Designed with a robust aluminium alloy casing, it supports various battery chemistries including Li-ion, LiFePO4, and lead-acid. Its compact form factor and advanced charging algorithms help optimize battery life and performance for demanding daily use.

## Performance Metrics

### Performance Highlights

**600 W**

Output Power

**67.2 V**

Output Voltage

**8 A**

Charging Current

## Technical Specifications

Input Voltage	110-132VAC / 200-264VAC
Compatible Battery Types	Li-ion, LiFePO4, Lead-acid

## Physical Dimensions

Size	173 x 90 x 63 mm
Net Weight	1.1 kg

## Compliance & Warranty

### Certifications

CE

### Warranty

12 Months

## Usage

### Common Applications

- Electric Motorcycle
- Electric Scooter
- E-bike
