

6/9 Channel Network Video Recorder

Network video recorder supports either 6 or 9 channels for surveillance and security. It records, stores, and manages video feeds from IP cameras.

Overview

Professional Surveillance Management

This 9-channel network video recorder offers a robust solution for professional surveillance needs, supporting resolutions up to 5MP. It features advanced H.265/H.264 compression for efficient storage and supports seamless remote monitoring via PC or mobile devices. With integrated network diagnosis and OTA update capabilities, this unit ensures reliable operation and easy maintenance for security installations.

Video & Audio

Compression Standards

H.265 • H.264

Output Interfaces

- HDMI (2K/30Hz)
- VGA (1920x1080P/60Hz)
- 3.5mm Audio Jack

Video Input Channels

9 CH

Supported Resolutions

720P, 960P, 1080P, 3MP, 5MP

Performance Metrics

System Performance

70 Mbps

Network Bandwidth

15 W

Max Power Consumption

Storage & Management

Storage Capacity

6 TB

Recording Modes

Manual, Timing, Motion Detection

Connectivity

Supported Protocols

UPnP, SNMP, NTP, SADP, SMTP, PPPoE, DHCP, ONVIF

Physical Specifications

Dimensions & Weight

Attribute	Value
Size	25.8 x 21 x 4.2 cm
Weight	d Kg

Operating Environment

- Temperature: -10°C to +55°C
- Humidity: 10% to 90%
