

6L Thermoelectric Cooler and Warmer

This thermoelectric device functions as both a cooler and warmer with a 6L capacity. It cools to 20-25°C below ambient temperature and heats up to 60±5°C, and it is suitable for use in cars, offices, homes and boats.

Product Overview

Versatile Thermo-Electric Climate Control

The TK-06L is a compact, egg-shaped thermoelectric cooler and warmer designed for high versatility in various environments. With a 6-liter capacity, it efficiently cools items up to 25°C below ambient temperature or heats them up to 60°C. Ideal for professionals on the go or office environments, this unit integrates seamlessly into vehicles, boats, and desktop spaces, featuring an elegant blue light for enhanced aesthetics.

Technical Specifications

Power Consumption

60 W

Max Power

Internal Capacity	6 L
Cooling Performance	20-25°C below ambient temperature
Heating Performance	60 ± 5°C controlled by thermostat
Power Supply Options	AC220V/DC12V, AC110V/DC12V, DC12V Only

Logistics

FCL Capacity

Container Type	Units per Container
20' Container	788
40' Container	2140

Packaging Dimensions

- Single Color Box: 28.3 x 26.9 x 37.9 cm
- Master Carton (4 pcs): 58.2 x 55.0 x 40.0 cm
