

6U Wall Mount Network Cabinet

This 6U wall mount cabinet is a compact and secure enclosure for network equipment and electronic devices. It is constructed from steel with a lockable front door and ventilation.

Overview

Compact Network Security

This 6U Wall Mount Network Cabinet provides a secure, space-saving solution for housing network equipment, servers, and electronic devices. Designed for environments with limited floor space, it features a durable steel construction with a transparent glass front door for easy equipment monitoring. With advanced cable management options and effective ventilation design, it ensures your hardware remains organized and protected.
