Overview

Heavy-Duty 6x4 Concrete Mixer

This 6x4 concrete mixer truck is engineered for demanding construction environments, combining a robust chassis with a high-capacity mixing drum for efficient concrete transportation. It features a powerful 385 horsepower engine and a 9-speed manual transmission designed for reliability on various terrains. With a focus on operator comfort and safety, the cabin includes advanced hydraulic controls, air conditioning, and ergonomic seating to ensure productivity during long shifts.

Dimensions & Capacity

Key Dimensions

8 m³ Mixing Volume	25000 kg GVW	9400 kg Kerb Weight
---	------------------------	-------------------------------

Overall Dimensions

7850 x 2495 x 3100 mm

Engine Performance

Engine Specifications

Parameter	Value
Horsepower	385 hp
Displacement	9.84 L
Max Torque	1750 N.m
Cylinders	6
Emission Standard	Euro II

Drivetrain

Transmission	9-speed manual with servo and synchronizer
Clutch	Single-plate dry diaphragm spring clutch, 430mm diameter

Chassis & Suspension

Axle Capacity

7.5 T

Front Axle

16 T

Rear Axle

Suspension System

- Front: 9 semi-elliptic leaf springs with hydraulic telescopic shock absorbers
- Rear: 12 semi-elliptic leaf springs with bogie spring and stabilizer

Safety & Comfort

Braking Features

Dual Circuit Air Brake • ABS • Exhaust Brake • Spring Energy Parking Brake

Cabin Amenities

Air Conditioning, Stereo Radio, MP3 Player, Adjustable Driver Seat, Sleeper Berth, Power Windows
