

6x4 Narrow-Body Tractor Truck

This heavy-duty vehicle is designed for hauling large loads, featuring a 6x4 drivetrain for enhanced traction and stability. Its narrow-body design allows for better maneuverability in confined spaces.

Overview

Heavy-Duty Tractor Truck

This 6x4 narrow-body tractor truck is engineered for efficient long-haul transportation and heavy-duty logistics. Designed with a focus on maneuverability and stability, it features a robust powertrain and a driver-focused cabin environment. The versatile configuration options allow it to adapt to various operational requirements while maintaining high performance standards.

Performance & Powertrain

Engine Specifications

254 kW

Max Power

8900 ml

Displacement

90 km/h

Max Speed

Emission Standard

Euro II

Transmission

9-speed forward, 2-reverse twin countershaft with all synchronizer

Dimensions & Capacity

Rated Payload

35525 kg

Dimensions

6750 x 2452 x 2965 mm (3560 mm for high-roof cabin)

Kerb Mass

8780 kg

Chassis & Drivetrain

Drive Type

6x4 Left-Hand Drive

Axle Configuration

3 Axles (HL457 Drive Axle)

Steel Spring Count

9 (Front) / 12 (Rear)

Cabin & Equipment

Cabin Amenities

Air Conditioning, Radio, Bunk, Flat Roof

Brake System

Full air brake with exhaust brake (ABS optional)

Tires & Fuel

Tire Configuration

- 10+1 Tire Count
- 12.00R20 Standard
- Radial Tube Type

Fuel Tank Capacity

320 L
