Product Overview

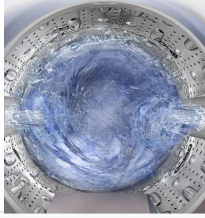

Professional Laundry Solution

This fully automatic top-loading washing machine offers a versatile capacity range from 7kg to 16kg, making it an ideal choice for diverse household needs. It features advanced washing technologies including a 3D Waterfall system and intelligent fuzzy control for optimal cleaning results. Engineered for durability and efficiency, the unit incorporates anti-rust cabinet construction and sophisticated filtration to ensure long-term performance and fabric care.

Key Features

3D Waterfall+Magic Filter

3D Waterfall System: 3D water flow reaches the last 60° which helps to provide deeper cleaning. Reduces detergent residue on clothes. Reduces odor along caused by undissolved detergent. Automatically filtering the fabric generated during the washing process, taking away the dirt and duster residues.
