Overview

Versatile 7-in-1 Cooking Solution

This square-shaped pressure cooker is designed to streamline modern kitchen workflows by combining seven distinct cooking functions into one compact appliance. Featuring a robust 5L capacity and an efficient 800W heating element, it handles everything from rice and grains to meats, soups, and yogurt with ease. The inclusion of a 1.7mm thick non-stick inner pot ensures even heat distribution and simplified cleanup, making it a reliable choice for professional and home kitchens alike.
