

7-Inch Abrasive Grinding Wheel, 36 Grit

This 7-inch grinding wheel has a 1/8-inch thickness and a 7/8-inch arbor hole. Its 36 grit is suitable for aggressive material removal and stock removal applications.

Overview

High-Performance Abrasive Grinding Wheel

This T27 DC angle grinding wheel is engineered for professional metalworking applications, offering a balance of high-quality abrasive performance and safety. Designed for versatility, it is suitable for grinding grey cast iron, cleaning switchboards, and chamfering edges on various materials, including non-ferrous metals and alloys. Its sharp abrasive grain structure ensures consistent stock removal and long-lasting durability for demanding tasks.

Technical Specifications

Wheel Type	T27 DC (Depressed Center)
Grade	1 A / WA
Compatible Materials	Metal, Non-ferrous Metals, Non-ferrous Alloys, Concrete, Natural Stone, Grey Cast Iron
