

7-Inch Abrasive Grinding Wheel for Metal

This 7-inch grinding wheel is designed for metalworking. It has dimensions of 180x6.0x22.2mm and a maximum RPM of 8500.

Product Overview

High-Performance Abrasive Grinding Wheel

This 7-inch abrasive grinding wheel is engineered for industrial-grade metalworking applications. Designed for durability and performance, it features a reinforced structure suitable for grinding steel, stainless steel, and various metal surfaces. The disc meets rigorous safety standards, ensuring reliability and consistency in demanding professional environments.

Technical Specifications

Reinforced design for general metal grinding applications, displaying key safety and performance specifications.

Detailed view of the reinforced abrasive structure, highlighting the fiberglass net reinforcement used for enhanced durability.

Dimensions

180 mm
Diameter

6 mm
Thickness

22.2 mm
Bore Diameter

Performance Limits

8500 RPM
Max RPM

80 m/s
Max Speed

Specification Code

A 24 Q4 BF

Compliance & Quality

Compatible Materials

Steel • Stainless Steel • General Metal

Certifications

ISO 9001, EN 12413, MPA Z-04889
