

7 Inch Grinding Wheel with 1-1/4 Inch Arbor

This grinding wheel measures 7 inches in diameter, 1/2 inch in thickness, and has a 1-1/4 inch arbor hole. Constructed with 32A80HVBE abrasive, it offers a balance of cutting speed and surface finish.

Product Overview

High-Performance Grinding Solution

This 7-inch grinding wheel is engineered for efficient material removal on a variety of ferrous and non-ferrous metals. Utilizing a durable Aluminum Oxide abrasive composition, it is designed to deliver consistent performance in rough grinding applications. It is an essential tool for workshops requiring reliable results on carbon steel, general steel, malleable cast iron, and hard bronze.

Physical Dimensions

Diameter	7 inch
Thickness	0.5 inch
Arbor Hole Diameter	1.25 inch

Technical Specifications

Abrasive Material	Aluminum Oxide
Grade Specification	32A80HVBE

Application Suitability

Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
Primary Application	Rough grinding
