

# 7 inch Metal Cutting Disc

This 180x1.6x22.2mm cutting disc is designed for use on stainless steel and steel. It complies with MPA EN12413 standards and has a maximum speed of 8600 rpm.

## Product Overview

### Professional Grade Cutting Disc

This 7-inch (180mm) cutting disc is engineered for high-performance cutting across various metals, including stainless steel, steel, and other alloys. Designed with a focus on durability and precision, it features a cool-cut technology that extends the life of the disc while maintaining cutting efficiency. It is an iron-free solution manufactured under strict quality control standards for reliable industrial use.

## Technical Specifications
