

7-Inch Smart Display Speaker

This smart speaker features a 7-inch display for visual interaction and enhanced user experience. The device combines audio playback with smart assistant capabilities, enabling voice control, information retrieval, and smart home integration.

Product Overview

Smart Visual Assistant

This 7-inch smart display speaker combines high-fidelity audio playback with an interactive visual interface. Designed for seamless smart home integration, it enables intuitive voice control and quick information retrieval. Its compact form factor makes it a versatile addition to any workspace or living area, providing both entertainment and practical utility.
