

7-Inch Steel Blade Pruning Shear

This 7-inch pruning shear is designed for efficient and precise cutting. It features durable steel blades for long-lasting performance and comfortable ergonomic handles.

Overview

Professional 7-Inch Pruning Shear

This 7-inch pruning shear is engineered for precision and efficiency in gardening and landscaping applications. Built with durable steel blades, it ensures clean cuts and long-lasting performance for various stems and branches. The ergonomic handle design minimizes hand fatigue, making it an ideal tool for extended professional use.

Technical Specifications

Blade Length	7 inch
Blade Material	Steel

Features

Key Features

- Ergonomic handle design
- High-durability steel construction
- Precision cutting performance
- Reduced hand fatigue

Applications

Primary Applications	Gardening, Landscaping, General Pruning
----------------------	---
