

7 x 1/4 x 1-1/4 Inch Grinding Wheel

This grinding wheel has a 7-inch diameter, 1/4-inch thickness, and a 1-1/4 inch center hole. It is designed for efficient material removal and surface finishing in grinding applications.

Product Overview

High-Performance Aluminum Oxide Grinding Wheel

This 7-inch grinding wheel is engineered for efficient material removal and reliable surface finishing. Constructed with durable Aluminum Oxide, it is optimized for rough grinding tasks on carbon steel, general steel, malleable cast iron, and hard bronze. Its robust design makes it an ideal solution for general-purpose grinding, tool and die work, and sharpening applications.

Physical Dimensions

Diameter	7 inch
Thickness	0.25 inch
Center Hole Diameter	1.25 inch

Technical Specifications

Primary Applications

- Rough Grinding
- Surface Finishing
- Tool and Die Work
- Sharpening

Abrasive Material	Aluminum Oxide
Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
