

700W Bagless Vacuum Cleaner with HEPA Filter

This bagless vacuum cleaner features a powerful motor for efficient cleaning. It includes a flexible hose and attachments for different surfaces and hard-to-reach areas.

Product Overview

Efficient Cleaning Performance

This high-performance bagless vacuum cleaner is engineered for efficient cleaning across various surfaces. Featuring a compact, durable design, it offers easy storage without compromising on power. The integrated HEPA filtration system effectively traps dust and allergens, promoting cleaner indoor air quality for your facility or home.
