

71cm Snow Blower with 13 HP Engine

This snow blower is equipped with a 13 HP engine and a 71cm working width. Its tracked drive system provides enhanced traction for clearing driveways and walkways.

Product Overview

High-Performance Winter Maintenance

This 71cm snow blower is engineered for heavy-duty winter utility, featuring a robust 13 HP specialized snow engine designed to operate in extreme cold. With a zero-turn capability and a caterpillar track drive system, it offers exceptional maneuverability and traction on slippery, snow-covered terrain. Ideal for professional or residential use, this machine ensures efficient snow clearance with its 71cm working width and durable friction-disc transmission.
