Overview

Professional 3G Mobile Broadband Solution

This high-speed 3G wireless data card utilizes the proven Qualcomm MSM6280 chipset to deliver reliable mobile broadband connectivity. Supporting HSDPA data rates of up to 7.2 Mbps, it provides a stable internet connection for laptops and mobile workstations. The device features integrated support for voice calls, SMS messaging, and phonebook management, making it a comprehensive tool for mobile professional communications.

Performance

Data Transfer Speeds

7.2 Mbps
