

7.25-Inch 1300W Circular Saw

This circular saw is equipped with a 1300W motor, delivering robust power for demanding cutting tasks. It features a 7.25-inch blade and provides precise cuts with a maximum depth of 65mm at 90 degrees.

Overview

Professional Circular Saw

This robust 7.25-inch circular saw is engineered for precise and efficient cutting in demanding applications. Equipped with a high-performance 1300W motor, it delivers the power needed for consistent results. The design features a durable base plate for enhanced stability and accuracy, alongside ergonomic handles and a blade guard for improved user safety and control.

Technical Specifications

Rated Power

1300 W

Power Output

Blade Diameter

7.25 inch

Features

Key Features

- High-performance motor
- Durable base plate for stability
- Integrated blade guard
- Ergonomic handle design

Application Suitability

Professional Use, DIY Projects
