

7.2V 180mAh Ni-MH Rechargeable Battery Pack

This is a Ni-MH rechargeable battery pack composed of six 1/3AAA cells. The battery pack has a voltage of 7.2V and a capacity of 180mAh.

Product Overview

Compact Power Solution

This rechargeable battery pack is engineered for applications requiring a reliable, lightweight power source. Composed of six 1/3AAA cells, it delivers a steady 7.2V output with a 180mAh capacity. Its design includes an integrated connector, facilitating seamless installation into various electronic devices.

Technical Specifications

Nominal Voltage	7.2 V
Capacity	180 mAh
Battery Chemistry	Ni-MH
Cell Configuration	6 x 1/3AAA

Safety and Handling

Safety Warnings	Do not dispose of in fire
