Overview

Modern and fashionable electric motorcycle design for adults.

High-Performance Electric Motorcycle

Designed for adult riders, this electric motorcycle combines a powerful 72V powertrain with a robust steel-reinforced frame. It offers an impressive balance of speed and range, making it an ideal solution for urban commuting and recreational riding. With its modern TFT display, hydraulic suspension, and dual-disc braking system, it provides a safe, comfortable, and stylish riding experience.

Performance

Key Performance Metrics

5000 W
Max Power

100 km/h
Max Speed

150 km
Max Range

Climbing Ability

> 20 degrees

Powertrain

Motor Type	3000W-5000W rear/mid motor
Battery System	72V 30Ah-105Ah Lithium
Charging	4-8 hours (5-20A charger)
Recharge Cycles	1000 cycles

Design & Build

Robust construction with hydraulic rear suspension and high-performance motor.

Available Colors

White • Black • Orange • Grey • Customized

Frame	Second-reinforced steel
Suspension	Hydraulic Front, Hydraulic Rear
Tire Specifications	120/70-12 (Front & Rear)

Safety & Features

Equipped with bright LED headlights for enhanced visibility.

User-friendly interface featuring a colorful TFT display and intuitive controls.

Braking System	Double Disk
Lighting	LED
Display	TFT Whole Screen Colorful LCD

Logistics

Secure packaging using iron frames and 7-layer cartons for safe international transit.

Container Loading Capacity

Container Type	Capacity (Units)
20' Container	18 - 24 units
40' HQ Container	48 - 70 units

Certifications

Compliance & Certifications	CE, EEC, COC, DOT, ISO9001, SGS, TUV
