

# 72V 40Ah Electric Scooter Motorcycle with Storage Box

This electric scooter motorcycle is equipped with a 72V 40Ah lithium battery. It achieves a maximum speed of 75km/h and offers a storage box for added convenience.

## ADDITIONAL IMAGES

## Overview

### High-Performance Electric Scooter

This 72V electric scooter motorcycle is engineered for urban mobility, offering a robust 3000W motor capable of reaching speeds up to 75 km/h. Designed with practicality in mind, it includes an integrated rear storage box and a heavy-duty loading capacity of 200kg, making it suitable for both commuting and delivery tasks. With a reliable 72V lithium battery system, it provides a versatile range of 35-120km per charge, ensuring efficient daily operation.
