Product Overview

Professional LiFePO4 Battery Charging Solution

This high-performance 73V 2A LiFePO4 battery charger is engineered for reliability in demanding electric vehicle applications. Housed in a durable aluminium alloy shell, it offers efficient charging for 20S battery configurations. Its versatile design and global safety compliance make it an ideal power solution for e-bikes, scooters, and various industrial equipment.

Technical Specifications

Output Power

146 W

Total Power

73 V

Voltage

2 A

Current

Input Voltage Range	110-132VAC / 200-264VAC
Series Configuration	20 S

Physical Attributes

Dimensions	137 x 90 x 51 mm
Net Weight	0.8 KG
Casing Material	Aluminium Alloy

Compatibility & Compliance

Safety Compliance	CE
Target Applications	Electric Bike, Motorcycle, Scooter, Golf Cart, Cleaner
Warranty	12 Months
