

750mm x 12mm Heavy-Duty Bungee Strap

This heavy-duty bungee strap measures 750mm in length and 12mm in diameter. Constructed from high-density rubber and latex composite, it ensures constant tension and maximum strength for quick, convenient load binding.

Overview

Heavy-Duty Cargo Securing Solution

This 750mm bungee strap is engineered for professional-grade load binding, utilizing a high-density rubber and latex composite for consistent tension. The design features high-strength, non-marking hooks that eliminate the need for complex knots while protecting surfaces from scratches. It is an ideal solution for securing tarps and cargo across various transport platforms including trucks, trailers, and motorcycles.
