

750W Electric Impact Drill

This electric impact drill is equipped with a robust 750W motor, ensuring high performance and reliability. It is designed with an impact function suitable for drilling into masonry and concrete, and it also features variable speed control for precision across different materials.

Product Overview

Professional Impact Drilling Performance

This 750W Electric Impact Drill is engineered for versatility and reliability across a wide range of drilling and fastening applications. Featuring a robust motor and an integrated impact function, it is capable of handling tough materials like masonry and concrete with ease. Designed with user comfort in mind, the tool includes variable speed control for precision and an ergonomic build to minimize fatigue during extended use.

Technical Specifications

Input Power

750 W

Power Rating

Voltage Compatibility	110-120V, 220-240V
Frequency	50/60Hz

Performance

No-load Speed	3000 rpm
Chuck Capacity	13 mm

Features

Key Capabilities

- Impact function for masonry and concrete
- Variable speed control
- Depth stop for consistent hole depth
- Ergonomic design for reduced fatigue
