

# 75kg Tamping Rammer Compactor with 3.0 kW Petrol Engine

This 75kg tamping rammer is an economical compactor for achieving optimal soil consolidation. It delivers strong impact force with a 3.0 kW petrol engine.

## ADDITIONAL IMAGES

## Overview

### High-Performance Tamping Rammer

This 75kg tamping rammer is engineered to provide an excellent balance of high impact force and cost-efficiency, making it an ideal choice for professional compaction needs. Designed for cohesive, mixed, and granular soils, it excels in confined areas such as trenches and backfilling projects. The unit features a robust, durable construction with a heavy shock mount system to ensure operator comfort and long-term reliability.

## Technical Specifications

Operating Weight	75 kg
Engine Power	3 kW
Engine Type	Petrol

## Key Features

The rammer features a robust shoe and durable bellow system designed for high impact force in confined areas.

Maintenance	Concise structure for easy accessibility
Operator Comfort	Heavy shock mount system reduces hand-arm vibration
Durability Features	Rust-free plastic oil tank, Protective top frame cover, Laminated wood and steel shoe, Polyurethane ribbed bellow

## Operational Performance

### Compaction Performance

**75 kg**  
Weight

**3 kW**  
Power

Operation Control	Ingenious throttle lever for smooth operation
