Overview

Reliable Power Generation

This high-performance single-phase gasoline generator is engineered for consistent and dependable power output. With a robust 15.0HP engine, it delivers a rated output of 7.5kW and a maximum capacity of 8.5kW, making it suitable for demanding applications. The unit includes convenient features like an electric start system and integrated safety protocols, such as automatic engine shutdown for low oil levels.

Technical Specifications

Rated Output	7.5 kW
Maximum Output	8.5 kW
Rated Voltage	230 V
Rated Frequency	50 Hz
Power Factor	1

Engine & Power

Engine Power	15 HP
Battery Model	HJ01L-08-GFP

Features & Safety

DC Output

12 V Voltage	8.3 A Current
------------------------	-------------------------

Safety Features

Low Oil Automatic Shutdown, Electric Start, Choke Control

Design

Design Highlights

- Portable frame design
- Integrated wheels
- Integrated handle
- Control panel with reset button
