Overview

Industrial-Grade Power Solution

This 75W single-output industrial power supply is engineered for reliability in demanding environments, including aerospace, military, and home appliance applications. It features a compact, lightweight design with high efficiency and low noise characteristics. The unit is housed in a perforated metal casing to ensure optimal heat dissipation and protection during operation.

Electrical Specifications

Available Output Voltages

- 5V
- 12V
- 15V
- 24V

Rated Power	75 W
Input Voltage Range	90~130VAC / 170~265VAC
Frequency	50/60Hz

Physical & Safety

Compliance

CE • RoHS

Dimensions	159 x 97 x 78 mm
Integrated Protections	Overload Protection, Overvoltage Protection
