Product Overview

High-Efficiency Utility Lighting

This 7ft LED utility wrap shoplight is engineered with a durable SPCC housing that provides excellent heat dissipation for long-term reliability. Featuring high-performance 2835 LED chips, it delivers an efficacy of up to 130lm/w, ensuring bright and energy-efficient illumination. Its streamlined, tool-free design allows for easy installation, making it an ideal choice for garages, workshops, and various commercial utility spaces.

Technical Specifications

Power Options

- 29
- 38

Luminous Efficacy

130 lm/w

Efficacy

IP Rating

IP20

Dimming

1-10V Dimmable

Physical Characteristics

Dimensions	7ft Length, 7inch Width
Housing Material	SPCC Steel
Lens Material	Extrusion PC

Features & Options

Optional Add-ons	Microwave Sensor, Emergency Driver
Suitable Environment	Damp Location
