

7kW Inverter Generator

This inverter generator delivers a starting wattage of 8000W and a running wattage of 7000W. It incorporates switch-on-demand technology, low idle mode, less than 3% THD, and pure sine wave output for quiet operation and efficient power.

Overview

Professional 7kW Inverter Generator

This 7kW inverter generator provides a clean, stable power supply with total harmonic distortion (THD) of less than 3%, making it suitable for sensitive electronic equipment. Engineered for efficiency, it features an intelligent economy system that adjusts engine speed based on load and temperature to minimize fuel consumption. With an ultra-quiet operation of 63dBA at 7 meters, it ensures minimal disruption, while versatile options like ATS, remote control, and parallel capabilities cater to diverse industrial and commercial power requirements.

Core Features

Inverter Technology, Pure Sine Wave, Economy System, Switch-on-Demand

Operational Options

Available Upgrades

- Remote Control
- One-Button Push Start
- Automatic Transfer Switch (ATS)
- USB Connectivity
- Parallel Connection Capability

System Compatibility

Dual Fuel Support • Dual Voltage Support
