Product Overview

Reliable 7kW Soundproof Power Solution

This 7kW diesel generator provides a dependable backup power source for residential, commercial, and industrial applications. Designed with a soundproof enclosure, it significantly minimizes noise during operation, making it suitable for noise-sensitive environments. The integrated Automatic Transfer Switch (ATS) ensures a seamless transition between mains and generator power during outages for uninterrupted performance.

Performance Metrics

Key Performance Metrics

7 kW

Rated Power

380 V

Voltage

50 Hz

Frequency

Electrical Specifications

Voltage Output Options

- AC 230V
- AC 380V
- DC 12V / 8.3A

Control & Monitoring

Control Panel Features

- Voltmeter
- Frequency Meter
- AC Switch
- Starter Switch
- Oil Alert Lamp

Technical Features

Automatic Transfer Switch	Yes
Super Silent Enclosure	Yes

Certifications

Quality Standards

CE • ISO 9001

ATS Compatibility

ATS Voltage Range

System Type	Supported Voltage
Single Phase ATS	220-230-240V
Three Phase ATS	380V
