Overview

Versatile Agricultural Power

This 8-10HP diesel walking tractor is a robust and efficient solution designed for small to medium-sized farming operations. Engineered for versatility, it supports a wide range of agricultural tasks including plowing, tilling, harrowing, and cultivation. Its compact design ensures excellent maneuverability in tight spaces, while the reliable single-cylinder diesel engine provides the necessary power and fuel efficiency for demanding field conditions.

Engine & Performance

Engine Type	1 Cylinder, 4 Stroke
Displacement	0.402 L
Maximum Speed	17.08 km/h

Transmission & Drivetrain

Gearbox Configuration	6 Forward, 2 Reverse
Clutch System	Single Friction Plate

Chassis & Dimensions

Wheel Tread	710 mm
Tire Model	6.00-12
Belts Model	B1750

Key Features

Key Features	Diesel Powered, Adjustable Handlebars, Compact Design, Multi-Gear Transmission, Fuel Efficient
