Overview

Heavy-Duty Lifting Solution

This robust diesel forklift truck is engineered for demanding material handling applications, offering a versatile lifting capacity between 8 and 10 tons. It features a heavy-duty chassis and a high-performance diesel engine, ensuring reliable operation in construction sites, warehouses, and industrial facilities. Designed with operator efficiency in mind, the unit includes an ergonomic cabin and high-visibility mast for safer, more precise control during heavy load transport.

Performance

Lifting Capacity

8 ton

Minimum Capacity

10 ton

Maximum Capacity
