

# 8 5/8" Seamless Casing Pipe for Well Drilling

This 8 5/8" seamless casing pipe is designed for well drilling applications. It is manufactured to API 5CT specifications.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Seamless Casing Pipe

This seamless casing pipe is engineered for critical well drilling applications, designed to provide superior structural integrity and stability for oil and gas wells. Manufactured in strict accordance with API 5CT and API 5B standards, these pipes ensure reliable performance under demanding subsurface conditions. Available in a wide range of steel grades and connection types, they are suitable for various drilling depths and geological environments.

#### Industry Standards

API 5CT, API 5B

## Technical Specifications

### Casing Connection Types

STC • LTC • BTC

### Tubing Connection Types

EUE • NUE

### Available Steel Grades

H40, J55, K55, M65, N80, L80, P110, Q125

## Size & Dimensions

### Standard Dimensions Reference

Size (in)	Weight (ppf)	Wall Thickness (mm)
4-1/2	11.6	6.35
5	15	7.52
5-1/2	17	7.72
7	23	8.05
9-5/8	43.5	11.05
10-3/4	40.5	8.89
13-3/8	54.5	9.65
16	65	9.53
20	94	11.13

### Available Size Range

2 3/8 inch – 20 inch
