Overview

Professional-Grade Pruning Performance

These 8-inch garden shears are engineered for precision pruning and trimming, making them an essential tool for both professional landscapers and home gardeners. Featuring durable zinc alloy handles, the design ensures a comfortable, secure grip and long-lasting tool life. The hardened steel blades provide clean, efficient cuts that promote plant health, while the spring-loaded mechanism minimizes hand fatigue during extended use.

Technical Specifications

Blade Length	8 inch
Handle Material	Zinc Alloy
Blade Material	Hardened Steel

Key Features

Operational Features

- Spring-loaded mechanism for smooth operation
- Safety lock for secure storage and transport
- Corrosion-resistant blade coating

Application

Ideal Applications	Shrub Shaping, Flower Cutting, Branch Pruning, Landscaping
