

8-Inch Lumen Selectable LED Downlight

These high-performance downlights are suitable for both new construction and retrofit applications. The downlights feature lumen selection, flicker-free operation, and anti-glare design.

Product Overview

Versatile 8-Inch LED Downlight

This premium 8-inch LED downlight is engineered for high-performance ambient lighting in residential, commercial, and hospitality environments. It features a flexible lumen output design, allowing users to select between 3000, 4000, and 5000 lumens to perfectly match specific space requirements. Built with a robust heat sink for superior thermal management, this unit ensures a long service life and reliable operation.

Performance Metrics

Selectable Lumen Output

3000 lm
Low Setting

4000 lm
Medium Setting

5000 lm
High Setting
