

8 x 1 x 1-1/4 Abrasive Grinding Wheel

This abrasive grinding wheel is designed for precision material removal and surface finishing. It has dimensions of 8 inches in diameter, 1 inch thickness, and a 1-1/4 inch center hole, making it suitable for a variety of grinding applications.

Product Overview

High-Performance Abrasive Grinding Wheel

This 8-inch abrasive grinding wheel is engineered for effective material removal and surface finishing in demanding industrial environments. Constructed from premium Aluminum Oxide, it provides the durability and consistent cutting action required for metalworking tasks. It is an essential tool for workshops handling carbon steel, general steel, malleable cast iron, and hard bronze.

Dimensions & Specifications

Diameter	8 inch
Thickness	1 inch
Center Hole (Arbor)	1.25 inch

Material & Compatibility

Primary Applications

- Rough Grinding
- Surface Finishing
- Material Removal

Abrasive Material	Aluminum Oxide
Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
