

## 8 x 1/4 x 1 1/4 Inch Grinding Wheel

This grinding wheel has dimensions of 8 inches in diameter, 1/4 inch thickness, and a 1 1/4 inch arbor hole. Constructed from durable abrasive materials, it offers excellent wear resistance and consistent performance for use in metalworking, woodworking, and construction.

### Product Overview

#### High-Performance Grinding Solution

This 8-inch grinding wheel is engineered for precision material removal and effective surface finishing. Constructed from durable aluminum oxide, it provides excellent wear resistance and consistent performance across a variety of industrial tasks. It is an ideal choice for metalworking, woodworking, and construction professionals requiring reliable abrasive tools.

### Technical Specifications

Diameter	8 inch
Thickness	0.25 inch
Arbor Hole	1.25 inch
Abrasive Material	Aluminum Oxide

### Applications

#### Compatible Materials

- Carbon Steel
- General Steel
- Malleable Cast Iron
- Hard Bronze

Industry Applications	Metalworking, Woodworking, Construction, Rough Grinding
