Product Overview

High-Capacity Power Solution

This 800 kVA generator is a robust and reliable power solution designed for continuous operation in demanding industrial and commercial environments. The unit features a soundproof enclosure to significantly minimize noise output, making it ideal for noise-sensitive urban or residential settings. Engineered for high performance and fuel efficiency, it provides a stable power supply to ensure uninterrupted operation of critical equipment.

Technical Specifications

Generator Drawing

Drawing of keypower generator

Detailed technical schematics providing dimensions and design layout.

Available Configurations

- Open type
- Silent type
- Super silent type

Rated Power Output

800 kVA

Quality & Compliance

Certifications

International certifications ensuring adherence to quality and environmental standards.

Certifications

CE, ISO 9001, ISO 14001, TUV CE

Manufacturing Standard

Compliant with international ISO standards

Features

Key Features

Soundproof enclosure • Advanced control system • Weatherproof design • Fuel efficient
